Government Wins Suit, Break In Stocks Follows

WASHINGTON, D. C., Nov. 17.—The government by an opinion today in the supreme court won its fight to have cancelled patents for 6,000 acres of California oil land valued at \$10,000,000 alleged to have been obtained through fraud by the Southern Pacific Company.

NEW YORK, Nov. 17.—The stock market was subjected to another sharp break at noon today. Heavy selling was precipitated by announcement that the United States supreme court had decided against the Southern Pacific company in the suit involving 6,000 acres

CONSUMERS ON STRIKE

NEW YORK, Nov. 17.—Milk drivers whose recent threat of a strike won them an increase of pay and sent milk prices up, found a "consumers' strike" in progress in many parts of New York this morning when they made their early morning deliveries. Hanging on doors of many homes and apartments were signs reading: "Milk strike—No milk wanted until Thursday."

The strike was called by the community councils of national defense, and "strikers" who observe the recommendations of the council will abstain from the use of milk on Mondays, Tuesdays and Wednesdays of every week until the price of that commodity is lowered.

U. S. CONSULAR AGENT FACES A CHARGE OF COLLUSION

WASHINGTON, D. C., Nov. 17.—William O. Jenkins, American consular agent at Puebla, was detained at the penitentiary for two hours after his arrest on a charge of collusion with the bandits, who recently kidnapped him, according to advices to the state department today from Mexico City. He then was released without bail and is now restricted to his own home.

First official news of the arrest of the consular agent was sent to the state department yesterday by the American embassy, which reported that the arrest appeared to be based on declarations from a number of persons, who, under threats, made statements purporting to establish collusion.

The department immediately telegraphed urgent instructions to the embassy to take the matter up with the Mexican foreign office with a view to securing the release of Jenkins. The embassy's later report that Jenkins had been released, but restricted to his home was based on a telegram from the consular agent. The embassy also reported that in a signed statement published in the Mexico City press, the prosecuting attorney of Puebla, charged that Jenkins was guilty of criminal responsibility and of giving false evidence and that he had been transferred to his home to avoid recurrence of his illness which followed his capture by the bandits.

MEXICO CITY, Sunday, Nov. 16.—(By The Associated Press)—Dispatches from Puebla today assert that William O. Jenkins, American consular agent at Puebla, although technically under arrest, charged with false statements in connection with his recent abduction by bandit leader Federico Cordova, by order of the state's attorney, is given freedom of the entire city, with no bail required. The officers accepting his word he will not leave Puebla until court proceedings are completed.

Jenkins, following his arrest, requested to be lodged in jail until the matter was finally settled, but the officials refused. It is expected a preliminary hearing will take place Monday.

STATE TO ASK RECEIVERSHIP FOR COAL MINES

TOPEKA, KANS., Nov. 17.—Receivership proceedings will be started at once by the attorney general in the state supreme court against the coal mining operators of Kansas, it was announced by Governor Allen today. By this move, it is expected operation of the mines, idle since November 1, on account of the strike, will be resumed.

TO PREVENT SHORT WEIGHING
COLUMBUS, O., Nov. 17.—Organized efforts to prevent short weighing of ice to consumers were discussed here today at the annual convention of Ohio ice men. Governor Cox will address the convention tonight.

DISPUTE
OVER SHIPS
PARIS, Nov. 17.—The status of the Imperial and other German ships aggregating 170,000 tons, now in the possession of the United States, was discussed by the supreme council today, but no action was taken. Great Britain has claimed that the action of the United States shipping board in retaining the vessels violates the agreement in the council that they should be turned over to the British as soon as they had finished transporting American troops.

The council decided that the oil tank steamers Germany now is commandeering, be taken to the Fifth of Purple, and returned to the government of Great Britain.

RECORD PRICE FOR BUTTER

CHICAGO, Nov. 17.—Highest prices ever known for butter were reached in Chicago today, 70 cents a pound for creamery extras, wholesale. This same grade never went above 67 1/2 during the world war. Receipts of butter here of late have been much less than a month ago.

Judge Crow Declines It

COLUMBUS, O., Nov. 17.—Judge Phil M. Crow, of Kenton, today declined the appointment to the Ohio supreme court bench, tendered to him by Governor Cox on November 11. The decision on the part of Judge Crow to remain on the court of appeals bench in the third district was a surprise to his friends here, as it was believed he would accept the position made vacant by the resignation of Judge Maurice H. Donahue to accept the federal judgeship appointment.

Governor Cox has not indicated when he will now offer the judgeship.

STORE WIPED OUT
ATTEN, O.—Large general store at Boston, mining town near here, destroyed by fire. Loss estimated \$25,000.

COAL SITUATION RAPIDLY BECOMING ACUTE AS THE MINERS REFUSE TO WORK

CHICAGO, Nov. 18.—While operators and union leaders had predicted resumption today of mining on a large scale in the bituminous coal fields of the country where more than 400,000 miners have been on strike for 16 days, only in West Virginia were both sides confident that "all the men" would be back at work during the day.

In the other large producing fields, the men showed a disposition in most cases to await further results of the conference at Washington of operators and union officials over a new wage agreement before returning to work.

In the meantime, a threatened coal shortage in the midwest has caused the regional coal committees to consider means of conserving fuel.

YOUTH AND LOVE HAVE WAY
DESPITE KING AND QUEEN
HUGHABERT, Nov. 3.—(By The Associated Press)—King Ferdinand and Queen Marie have been much disturbed by the fact that Crown Prince Charles has rejoined Miss Zynia Lubrino, whom he married. Margareta in 1918 and from whom he was divorced by his parents to obtain a separation soon afterward. Besides renouncing his rights to the throne, he has accepted a subordinate position in the army. The pair are familiar figures on the boulevards of Bucharest.

"He has had all that a father and mother could give to a son," said Queen Marie sadly, "and if he chooses to go this way we can't help it. We have pleaded and reasoned with him until entirely in no longer possible. Youth and love, I suppose, will have their way in spite of kings and queens. The whole affair has been a great grief to the king and myself."

TRAINMEN
CONSIDERING
HINES' OFFER
CLEVELAND, O., Nov. 17.—Heads of the four railroad brotherhoods met here today to consider Director General Hines' offer of overtime payment on slow freight service. They hope to be able to give an answer within a week.

Those attending the conference included W. C. Lee, of the trainmen; Timothy Shea, of the firemen and engineers; Warren S. Stone, of the conductors, and L. E. Sheppard of the conductors.

Director General Hines has offered overtime payment in an unusual way, and the offer requires consideration for that reason, Mr. Lee said. Railroaders receive a day's pay for each 100 miles they make in eight hours. Most of them complete their runs in that time, while those completing their runs in less time receive full eight hours pay.

Where more than eight hours are consumed, railroaders have only been paid at the regular rate for eight

ONE DEAD, 4 STRICKEN BY TAINTED BUTTER

WEST SALEM, O., Nov. 17.—Mrs. Sarah Haverstock is dead and two other women and two men are seriously ill at an Ashland hospital today as a result of eating poisoned butter at a dinner given by the dead woman at her home here Friday. Physicians hold out little hope for the recovery of the two men, while the women are reported to have an even chance for recovery.

Shortly after the dinner each of the five complained of feeling ill and a physician ordered them removed to the hospital, where Mrs. Haverstock died last night.

Chemical tests proved that the butter, which had been made by Mrs. Haverstock, contained a poison believed to have been in the milk from which it was made. Physicians believe the cows, owned by the Haverstock family, had eaten a poisonous weed and that the deadly juice was contained in their milk. The victims in addition to Mrs. Haverstock are: Mr. and Mrs. S. A. Reed, Frank Cowell and Mrs. Joseph Crosby.

In Indiana an order prepared by the public service commission, reviving lightless nights and heatless days of war time, is to go into effect tonight as a means of preserving coal supplies. The railroad administration today took off a dozen local passenger trains on the Chicago, Milwaukee and St. Paul Railroad here and it was said that further curtailment of railroad service, both in the passenger and freight departments would result. If coal supplies continue to be depleted, it was also asserted by members of the fuel committee that unless production is resumed on a larger scale within a short time, it will be necessary to withhold coal from non-essential industries.

ONLY COMPROMISE CAN SAVE THE TREATY FROM REJECTION BY WILSON

WASHINGTON, D. C., Nov. 17.—The foreign relations committee reservation excluding the United States from any responsibility in regard to disposition of the German colonies was rejected today by the senate.

The vote rejecting the reservation was 61 to 29. Twenty-two Republicans voted against the reservation while three Democrats, Shields, Tennessee, Reed, Missouri, and Walsh, Massachusetts, voted for it.

The reservation, which was the first of the committee group to be defeated, failed to command the support of the mild reservation Republicans and was opposed also by some of the Republican irreconcilables in addition to the administration Democrats.

WASHINGTON, D. C., Nov. 17.—A number of the mild reservationists conferred today and at least part of them were said to have agreed to vote against upholding Vice President Marshall, should he rule that a second ratification resolution could be reconsidered after that reported by the foreign relations committee had been rejected.

WASHINGTON, D. C., Nov. 17.—The president's decision drew from Republican leaders emphatic statements that there would be no compromise and that their original program of procedure would be adhered to.

"The only result has been to harden our lungs," said Senator Lodge. "It was the view of the Republican leaders that the senate probably would reach a deadlock and they said if the treaty was withdrawn or failed, the situation would be chargeable to the administration."

Immediately after convening today the senate planned into consideration of the two pending reservations. Senator Lodge, asked for brief time to discuss anti-trust legislation, but Senator L. G. McPherson, Wisconsin, insisted that the treaty had right of way and was sustained.

Only two hours out of the 48 hour maximum under the cloture rule had been consumed when debate began today. The reservation declining the United States to accept any interest in or responsibility for the German overseas possessions, was opposed by Senators Townsend and New, Indiana, Republicans. Senator New said the United States might secure valuable rights in the Pacific Islands in possession of Germany.

Supporting the reservation, Senator Shields, Democrat, Tennessee, said the secret treaty between Japan, Great Britain and France had given the Pacific Islands to Japan without the reservation and that the United States would become merely a trustee for Japan.

Senator Hitchcock did not interpret the president's decision to mean that the treaty was dead, declaring he still believed a compromise reservation program could be worked out.

The preamble of the committee resolution, reminding that the senate reservations must be accepted by three of the other great powers, was all by the Democratic leader to be particularly objectionable to the president, who regarded it, he declared, as "killing the treaty absolutely."

He indicated also that the "Article 10 reservation was entirely unacceptable to Mr. Wilson" but said the executive might be willing to accept some of the other proposals on the committee program.

As soon as he left the White House, Senator Hitchcock began plans for a conference of Democratic friends of the treaty. It was said it might be held tonight. The plan at first had been to have the mild reservation Republicans in the conference, but it was understood they were unwilling to negotiate until the committee program had come to a vote.

Mr. Hitchcock predicted that the mild group would give the Democrats enough support to uphold the vice president in ruling that further ratification resolutions are in order, thus opening the door for a compromise.

Mr. Hitchcock did not go into details as to the exact scope of which the president might interfere in the treaty proceedings, but indicated that the executive might withdraw the treaty unless the Democratic conference developed an agreement to vote down ratification.

If the committee resolution is defeated, however, it is expected Mr. Wilson will let the opposing groups work out whatever compromise they can and will not interfere unless he finds withdrawal necessary to prevent ratification with reservations, which are unacceptable.

Mr. Hitchcock said he did not discuss with the president the proposal of Republican leaders to pass a resolution, in case the treaty fails, declaring the war at an end. It is well understood, however, that the administration generally would look with disfavor at such a manner of bringing a peace status.

ANOTHER PLANT RESUMES WORK

PITTSBURGH, PA., Nov. 17.—Steel operations were resumed today at the Mingo Junction plant of the Carnegie Steel Company, according to an announcement at the company's general offices here. There was a shortage of foreign laborers, but the company said the plant would be operated with the men who had reported for work. The Mingo mills were closed by the steel strike September 22, and no effort toward resumption was made until today, although numbers of the men have been steadily employed making repairs.

POET-AVIATOR'S EXPLOIT MAKES HIM MASTER OF ENTIRE DALMATIAN COAST

FUME, Sunday, Nov. 16.—(By The Associated Press)—Gabriele D'Annunzio's latest exploit appears to have made him master of the entire Dalmatian coast. It secured the adherence to his side, it has developed, of Admiral Millo, commander of the Italian occupation forces in Dalmatia, thus giving D'Annunzio a continuous command from the Austro-Italian armistice line north of Fiume, southward to Ragusa, just to the north of Gattine, covering all the approaches to the Dalmatian coast. Four warships including a dreadnought and four torpedo boat destroyers, have been added to the D'Annunzio naval command, giving him a formidable weapon with which to maintain his present position. It is announced D'Annunzio will occupy all of Italy, including the secessionary Foreign Minister Tittoni proposes shall comprise an independent state. D'Annunzio returned here Saturday night from his expedition to Zara on the Dalmatian coast. He left the Garrison at Zara commanded by one of his officers.

Operators Claim Government Lax In The Enforcement Of Court Order Against Miners

WASHINGTON, Nov. 17.—Operators in the soft coal industry today considered calling upon the department of justice to enforce more vigorously the federal court mandate against the striking miners than to force resumption of work in those districts where the men walked out November 1. The government has not done its full duty in merely requiring the withdrawal of the strike order, several operators declared, pointing out that a general stoppage of production of coal exists in many mines employing union labor.

Notices of the withdrawal of the strike order were sent out on plain paper instead of official stationery and without the organization seal and facsimile signatures of the officers of the United Mine Workers of America, it was said.

Meanwhile, the joint wage scale committees of the miners and operators in the central competitive field renewed negotiations on the demands of the workers for a 60 percent wage increase, a six hour work day and a five day week.

W. W. REFUGEES IN CABIN HOLD POSSE AT BAY

CENTRALIA, WASH., Nov. 17.—Former service men and woodsmen, members of a posse attempting to arrest alleged I. W. W. availed themselves from here before attempting today to storm a hunters' cabin on the head waters of Hanford creek, 13 miles northeast of here, in which it was believed the men they sought had taken refuge.

Since Saturday night possemen have guarded all outlets from the dense woods surrounding the cabin, somewhere in which is believed to be the body of John Hauer, a posseman, missing since searchers and the pursued men exchanged shots late that afternoon. Too few in numbers to take the cabin by storm, though its defenders are thought to number but three, the former service men sent out a call for additional forces.

These were sent from here but owing to the difficult nature of the country to be traversed, it was not thought the reinforcements would arrive in time for an attack before late in the day. In the cabin Captain Lloyd Hyslop, commanding former service men engaged in rounding up suspected I. W. W. in this part of the state, believes there are Bert Hays and a man named Hansen or Leighton, and one other. Hays is accused of firing the shot which killed Warren Grimm, a miner, in the attack on an Armistice day posse here, which started the recent series of raids and disorders in the northwest.

Maryland Miners Return

CUMBERLAND, MD., Nov. 17.—There was a general resumption of mining in the upper Potomac and Georges Creek coal fields today, according to statements of leading operators here. Ninety percent of the striking miners returned in the upper Potomac region and 70 percent in the Georges Creek mines, they said. Between 8,000 and 10,000 miners were out in these two fields.

CROWDED HOUSE AT FRANKLIN AVE. M. E., PREACHERS TO STAY OVER WEDNESDAY

That the meetings in progress at Franklin Ave. M. E. church are interesting the public was amply evidenced by the attendance at the three services yesterday. Last night the church and balconies were filled and it was necessary to raise the big partition leading into the Sabbath school room. Preachers and singers have made a "hit" all of this is of course, to be expected, as Portsmouth is enjoying the distinction of having some of America's greatest preachers in its midst these days. Dr. J. C. Macgregor of Dayton preached in the morning on "The Inspiration of Holy Scriptures." It was a superb plea for the recognition of the Bible as the very Word of God. Without doubt everyone who heard this sermon will be more respectful and read the Old Book as a result. In response to a call at the close a number of parents promised to establish family altars in their homes.

At the afternoon meeting Dr. Macgregor spoke on "Prayer" using as his text the parable of the importunate widow. Men ought to pray, said he, because it is the material cry of the soul for God, because the home needs it, because God commands it, because God answers prayer.

He was followed by Dr. J. W. Lawrence of Champlain, N. Y., who spoke on "Personal Evangelism." In a masterful way he drew home the necessity of fighting for men with all the might of expert argument, especially emphasizing the method of "One to One."

In the evening Dr. Macgregor was again at his best in a strong sermon on "Evangelism" using the 12th Psalm as a basis for his discourse. His explanations of meanings as found in God's Word proved him a careful and

Asked Ouster Proceedings

COLUMBUS, O., Nov. 17.—George H. Phelps, Findlay lawyer, today asked the Ohio supreme court to direct Attorney General Price to begin ouster proceedings against Ohio coal mining companies organized under the laws of Ohio for failure to operate their mines and to have receivers appointed for them. In his petition, Phelps said that mine operators are violating their charter by suspension of the mines since November 1, and that the court has the right to direct their operation under receiverships. Phelps' petition was not filed because not accompanied by the proper fee.

Meetings In Churches

The Old Town Church was the scene yesterday of a meeting in the interests of the Chamber of Commerce (Campaign) and the subject was treated by three speakers, Rev. C. E. Libby, Allen Jordan, and James E. Green.

Invitations were sent out Friday to many who would not have been reached by the announcements of the other campaign meetings and the response was generous.

Mr. Jordan took as his subject, "What Should Be Done for Portsmouth?" and was followed by Mr. Green, who outlined "How the work should be done," whereupon Rev. Libby closed the argument by speaking on "What It Should Be Done."

Mr. Green also addressed the Sunday School of All Saints' church and led the singing and gave a brief talk to the Sunday School of the First Presbyterian church.

TWO HURT, ONE SERIOUSLY WHEN FORD AND FIRE TRUCK COLLIDE

Harold Brasie, 17-year-old son of Charles Brasie, 1551 Seventh street, suffered a broken right leg and Richard Hidenour, 18-year-old son of C. W. Hidenour, of 697 John street, received serious bruises and a bump on his right temple which made him unconscious for several hours, Sunday noon, when the Ford touring car in which they were riding was struck by the big fire truck of the Seventh street engine house, the machines colliding at Ninth and Washington streets about 11:45 o'clock. The young men were fortunate to escape with the injuries received, as their machine was knocked a distance of about fifty feet, over the sidewalk and through the picket fence of the Pete Hosen home, southwest corner of Ninth and Washington.

The accident occurred when the company was returning from a fire on Eleventh street. The machine is owned by Mrs. Lucy McGarry, for whom Hidenour drives. He had the use of the machine Sunday morning and was out riding with his friend, Brasie, both occupying the front seat, Hidenour being at the wheel. They went down Ninth and the fire truck was going south on Washington from Tenth. A Blue Line taxi cab was coming north on Washington, but did not get raised up in the accident. Hidenour failed to see the fire truck and Walter Lanter, driver of the truck, failed to see the Ford, as he was looking out for the taxi.

Hidenour was quick to see that he could not turn either way on Washington and started on across the intersection toward Court street. The Ford almost cleared the intersection, the front of the truck cutting the right rear part of it. The machine was whirled around, knocked over the curb, sidewalk and through the fence, Brasie being thrown to the grass lawn after the car reached the Hosen front yard. Hidenour was thrown out on the paved street. The fire truck could not be brought to a stop until it had reached the alley halfway between Ninth and Eleventh on Washington.

Ernest Clark, of Washington street, near Tenth, was an eye witness to the accident. He said that he remarked to his wife when the truck went over the Tenth street railroad crossing that the machine would have an accident some time on account of going so fast. Clark turned toward Ninth street just in time to see the machine collide.

Both young men were taken to Hospital Hospital. Hidenour being in an unconscious condition. Mrs. Gilbert Micklethwait and J. S. Hardin attended the injured. Hidenour left the hospital after regaining consciousness Sunday afternoon. Brasie's right leg was broken just above the ankle and his left hand was badly cut. He also received numerous lacerations and serious bruises. The Ford machine was badly wrecked, and the heavy bumper on the fire truck was bent.

The Manualo

As a climax to the many years of Baldwin Player Piano construction, study and progress, we offer the Manualo as a player piano, broader and more capable than any other now on the market. It is, indeed,

A PLAYER PIANO that is all but human.

From every standpoint of construction, for durability, for compactness, for ease of playing, the Manualo is made right. It is the most modern player in the trade, it is individual, entirely different and distinct from any other player.

The Manualo is found exclusively in the player pianos made by The Baldwin Company, namely: The Baldwin Manualo, The Ellington Manualo, The Hamilton Manualo, The Howard Manualo.

Remember: It is safe to buy at Baldwin's. Your visit to our music rooms is invited. You are welcome whether you wish to buy or not.

A TIP FROM THE M.D. FORTIFY AGAINST THE "FLU" BY TAKING SHAMROCKS

State Medical Boards, Physicians, Druggists and Local Health Boards are warning the public to prepare for a return of influenza. They are advising the laity to keep their eliminating processes working by the adminis-

tration of some good "Constitutional Laxative"—such as Shamrocks Laxative Stomach and Liver Medicine. Ordinary pills, salts, oils and mineral waters will not thoroughly renovate the system. Take Shamrocks to completely clean you up. You must not take calomel—it's an irritant poison—it's quick-silver and will salivate. Shamrocks take the place of calomel without its harmful after effects. Shamrocks act so pleasantly and effectively you just can't help but like them. Try a package right away. Most all druggists sell them for 25c a package. Remember! Only the good is substituted.

37 Radicals Arrested

FARMINGTON, W. VA., Nov. 17.—Thirty-seven alleged radical agitators arrested in this region during the past three days by agents of the department of justice and county officers, are in the Marion and Monongalia county jails today awaiting deportation proceedings, which, according to federal authorities, will be started in the immediate future. Twelve of the prisoners were taken in raids late Sunday at Downs and Farmington.

MAYOR TAKES RIDE IN THE AIR

To Mayor H. H. Kaps goes the honor of being the first chief executive of this city to fly over Portsmouth in an airship. The mayor took an air ride yesterday as the guest of Eugene Cecil, pilot of the Shelbyville, (Ill.) Air Ser-

vice Co. airplane, which is here for a week's stay. "It was a wonderful trip and I enjoyed it immensely," said the mayor this morning in discussing the flight, "but I was fearful to limit the pilot to straight flying,

for I did not care to experience the thrills of looping and other fancy stunts."

Pilot Cecil and his mechanic, Roscoe Davis, who, by the way, is a former New Boston boy, both had long stays in France in the air service.

For the first time since the strike began the union organizers themselves were in charge. A number of minor clashes took place, as a result of which three men are in the hospital, but as a rule the strikers were orderly. Mill operation was somewhat increased.

OMSK TAKEN

LONDON, Nov. 17.—The capture of Omsk by Russian soviet forces unconditionally denied in advance through Scandinavia yesterday, is asserted in a Bolshevik communiqué received by wireless from Moscow today. Severe street fighting preceded the capture and more than 1,000 prisoners were taken by the Bolsheviks. It is alleged.

The Kolchak forces retreated eastward in disorder, says the statement, which also claims the capture of Yarovsk by the all-Russian troops. In the Baltic region, it is announced, after the capture of Yamburg, the Bolsheviks continue to advance and are pursuing General Idenfeldt's troops.

Flash! only a water laxative really flushes

Nature itself uses floods of rain, running streams and rushing torrents to prevent stagnation.

WHEN your eliminative system is normally active, medical authorities advise that water be used to keep it so.

When your eliminative system is in an abnormal condition—or constipated—you should depend upon a water laxative to restore it to its proper functioning.

You cannot "dry clean" the small and large bowel effectively by the use of pills, powders, tablets, etc. Only a water laxative really flushes away the disease-producing contents of your intestinal tract when you are constipated.

The foremost water laxative most frequently recommended by physicians is Pluto Water, America's physic. Pluto Water is a most effective flushing agent—it gives you all the benefit of the internal bath so essential for continued good health.

Pluto Water cleanses the colon gently, pleasantly, but positively and completely. It is bottled at French Lick Springs, Indiana, and is a recognized curative agent for kidney, liver and stomach troubles, rheumatism and nervous disorders.

ELKS WILL GIVE AN AUTOMOBILE PARADE TO BOOM CHARITY BALL

And the greatest of these is charity. With a view of dispensing real charity in the city at the gladsome Yuletide season, the Portsmouth Lodge of B. P. O. Elks No. 154 will entertain with a Charity Ball on Friday evening, December 5.

Plans are well under way to make it one of the most memorable functions of the kind ever held in Portsmouth. The proceeds will be used to brighten the hearts of the needy in the city, and especially the little kiddies.

Real sunshine will stream into many homes and drive away the darkness and gloom as a result of this ball. It is to be a city wide affair, and the committee on arrangements is confident that on the night of the dance between 4,000 and 5,000 tickets will have been sold.

On Wednesday evening the Elks will stage an automobile parade and many machines will be in line. A volunteer band will collect it with music and

Going After Bootleggers

The Huntington Herald-Dispatch this morning said:

Two United States officials are in Ironton today making an investigation of the alleged activity of certain men on the sale of liquor. Bootleggers are being watched and some former saloon men are also being given the once over by the officials. Ironton has been the booze mecca for the drinkers here and elsewhere and various schemes were used to buy the liquor. Some bootleggers have more money now than they have ever had in their lives, and they got it from the sale of not just whiskey, calculated to make a man "rob his own trunk." The local officials will probably be called upon to assist the United States officials in a general roundup of alleged offenders.

Officer Is Shot By Fugitive

While attempting to arrest Charles Brown, 21, of McCall, Ky., Alvin Mathews, 41, of McCall, special deputy sheriff, was shot seriously through the stomach about three o'clock Sunday afternoon, the shooting taking place while Mathews was chasing his man up the hillside back of McCall. The shooting was the outcome of a disturbance at a Holiness church meeting Saturday night.

Mathews was brought to Hempstead hospital about six o'clock Sunday evening and was put on the operating table, Dr. Hunt, of Fullerton, and J. S. Rardin performing the operation. The various organs were perforated nine times, four of the perforations being in the bowels. The bullet, thought to be a .32, entered to the right of the pit of the stomach and ranged downward to the left, the bullet stopping in the lack of the left hip, and was not definitely located. Mathews spent a very good night and talked of the shooting this morning at the hospital.

Brown had not been captured yet this morning. After the crowd of men from the church gave up the chase over the hills Sunday afternoon, Deputy Sheriff William Anderson, of Greenup, started on a hunt for the young man.

Saturday night at the Holiness church meeting it is alleged Brown and a man named Henry Justice, started a fight, Justice knocking Brown down against the wall. It is said Brown got up with a knife in his hand and made several passes at Justice. Church was dismissed in the meantime and friends

of each man escorted them from the scene. John Nichols and James Jarvis of the church board, swore out warrants in Sylve L. M. Porter's court, mouth of Schultz, Sunday morning, against Brown and Jenkins, two charges, that of disturbing public worship and cutting with intent to kill, being filed against each man.

The warrants were placed in the hands of Mathews about noon Sunday. He thought that the young man would be near the church Sunday afternoon, and went there about two o'clock to get his man. He found Brown in the front yard of the church. The young man was no doubt expecting an officer as he knew the warrant was out for his arrest. Mathews said that he placed his hand on Brown's shoulder, telling him he had a warrant for his arrest. Brown jerked loose and took to his heels up the tramway leading from the brick yard. The chase was over the tramway county road, and then up the hillside, Mathews following his man at a distance of about 20 yards. According to Mathews, Brown suddenly turned and opened fire, the first shot going over his head. Brown then knelt and fired again, the shot entering Mathews' stomach. He fell and then Brown fired again, the shot going wild. The shots brought the church meeting to a close and a crowd soon joined in the chase for the gun user. Mathews managed to get down the hillside to the road, where he had to lay down and wait for the crowd to get to him. He was carried to his home and Dr. Meadows, Hunt and

Mathews at first refused to go to the hospital, but was told that he would have to undergo an operation, consenting after much arguing. Dachtler's ambulance brought Mathews to the hospital.

According to Mathews, Brown is a mischievous young man but a good worker when he takes employment. Brown worked at one time under Mathews at the Taylor and Sons' brick plant, at McCall.

Mathews said this morning that he saw the gun but did not think Brown would shoot and says that he yelled for him not to shoot, after the first shot was fired.

Mathews has a wife and three children and is well known in Fullerton and vicinity.

Deputy Sheriff Anderson was also said to be looking for young man this morning who assisted Brown in getting his gun and making good his escape.

What Is Rheumatism? Why Suffer From It?

Sufferers Should Realize That It Is a Blood Infection and Can Be Permanently Relieved

Rheumatism means that the blood has become saturated with uric acid poison.

It does not require medical advice to know that good health is absolutely dependent upon pure blood. When the muscles and joints become sore and draw with rheumatism, it is not a wise thing to take a little salve and by rubbing it on the sore spot, expect to get rid of your rheumatism. You must go deeper than that, down deep into the

blood where the poison lurks and which is not affected by salves and ointments. It is important that you rid yourself of this terrible disease before it goes too far. S. S. S. is the blood cleanser that has stood the test of time, having been in constant use for more than fifty years. It will do for you what it has done for thousands of others. S. S. "The Birth of a Race," one of the World's Greatest Pictures Begins a Three Day's Engagement at the Columbia Theatre, Starting Tonight

A great spectacular romance, "The Birth of a Race" has been booked by the Columbia Theatre for an engagement beginning tonight.

This picture comes direct from a long run at several of the leading theaters of Chicago, where it was hailed as one of the most beautiful and dramatic photoplays ever made. Two years and over a million dollars were required for the filming of this great production, which combines a gorgeous historical pageant with a modern story of unusual appeal. A big

there is the foundation of the story, mankind's struggle for the ideal of brotherhood throughout the ages.

With its romances, its sadness, tears and thrills, this exceptional picture play carries us back to the Garden of Eden, thence to Noah and the Flood, to Moses, to the Crucifixion, to Columbus, the Declaration of Independence, Lincoln and his Emancipation Proclamation, to the great world war and out into the sunshine of peace, with a better understanding and a closer brotherhood between all races and nationalities.

THE NEW PEOPLE DOROTHY DALTON

"Extravaganza," Thos. H. Ince Special Feature at Lyric Today and Tomorrow, Starring Dorothy Dalton

The disease of the century is the theme taken by J. Lynch in writing the "Thomas H. Ince special feature, 'Extravaganza,' the Paramount picture in which beautiful Dorothy Dalton will be presented at the Lyric Theatre today and tomorrow.

This disease he describes as "the craving to seem to be something that one is not," and for his characters he takes the rich and seeming rich of the New York stock exchange. Dorothy Dalton plays the part of wife of a broker and an associate of millionaires. This gives her opportunity to wear the loveliest gowns and most stunning jewels.

The story, which was written by John Lynch, tells of a woman who revels in sham and pretense and with her little private fortune picked snags away, wrecks her husband by the gratification of her vanity. Little does she realize the consequences that attend financial ruin, little does she think of the awful abyss to which leads the lust for gold until a terrible dream awakens her.

Then the better woman asserts herself. She runs to her husband with great resolution, only to find that he already has gone down in the crash of a Wall Street panic.

A New Mack-Sennett Comedy, "The Little Widow," will be shown also.

CONSTANCE TALMADGE

Did You Ever Hear of "Happiness a La Mode?" Then Come in the Strand Tonight and See Constance Talmadge in Her Charming New Play

How a young and beautiful wife loses her husband and then wins him back again is delightfully portrayed by Constance Talmadge in her latest feature picture, "Happiness a La Mode," in which Lewis J. Selznick presents her tonight at the Strand Theatre.

Barbara Townsend was ambitious to make a success of married life. She realized that to try and pin up a husband and jealously watch his every action would be fatal to her aspiration. So strongly was she impressed with this idea that she did not realize that she was giving him too much freedom.

So when he came to her one day and asked for a divorce it was a painful shock to her. He had mistaken her attitude for a lack of interest in him and "another woman" was the result. Nevertheless, Barbara was proud and she gave him his divorce, but she didn't give him up. This notion was merely the first step in her grand plan

to win him back, which forms a very clever story, admirably adapted for this vicious star. An episode of "The Great Gamble" completes the show.

Noted American Violinist Coming

SASCHA JACOBSEN WILL APPEAR AT THE HIGH SCHOOL AUDITORIUM, TUESDAY EVENING

The fact that Sascha Jacobsen is a thoroughly American trained violinist should be of great encouragement to ambitious musicians who feel that their careers have been marred by the fact that they were not able to receive their musical education abroad. Until very recently, American concert goers were of the impression that unless a musician had a European reputation he or she was unable to be a finished artist. But that is not the case any more. Now our singers are received in all parts of the world on equal footing with European artists. Such singers as Mmes. Nordica, Emma Eames, Geraldine Farrar, Mary Gordon and Olive Fremstead have been leaders in their profession abroad. But it remained for Sascha Jacobsen, the violinist, to prove that a great instrumentalist can reach the top of the ladder without even appearing in Europe. After his American success, the violinist received many offers of European tours but the young artist is going to wait a year or two before accepting them. He has quite enough to do in this country.

The violin which Jacobsen uses is insured for \$20,000. He will trust it to no one, not even his faithful accompanist.

Thanksgiving Offer

One Dessert Free

A Real-Fruit Dessert For Six People

This is an offer to buy you this week a Jiffy-Jell dessert for six people.

Many housewives don't know what Jiffy-Jell means to them. They know the old-style quick desserts, but not the new.

Jiffy-Jell brings you real-fruit flavors—not the artificial. Each package contains a bottle of fruit juice condensed.

We crush the real fruit, and much of it, to flavor a Jiffy-Jell dessert. A Jiffy-Jell dainty seems filled with fruit. Here you get fresh-fruit delights. And you get its healthful acids, needed every day.

Try One Fruit Free

Present the coupon to your grocer this week. Buy two packages of any flavor and he will give you a full-size package of Jiffy-Jell in Loganberry or Pineapple flavor free. We will pay him for the free package. This will give you three packages for the price of two.

Jiffy-Jell comes in many fruit flavors, but the choice is Loganberry and Pineapple. You will find in each package a bottle of the fruit-juice flavor in liquid form, condensed.

The Jiffy-Jell mixture is ready-sweetened, acidulated and in proper color. Simply add a pint of water as directed on the package, then the flavor from the vial, and let cool.

See what you get—a real-fruit dessert for six people. It will have a wealth of fruit. It will change your whole conception of quick gelatin desserts.

Note that this offer is made on two flavors—on Loganberry and Pineapple only. Your grocer has no right to offer another.

We want you to know Jiffy-Jell at its best. Then always remember that this real-fruit dainty is ever at your command. It will bring you the joys of real fruit. And it will cost you, when you buy it, only a few cents per dinner. It will cost you less than the fruit alone which we use to make the flavor.

This offer is for this week only. Cut out the coupon now. If your grocer lacks the flavors mentioned, go to another store.

Pineapple Juice

Comes condensed in a bottle in Pineapple Jiffy-Jell. We use the juice of half a pineapple to flavor a pint dessert.

Loganberry Juice

Comes condensed in a vial in Loganberry Jiffy-Jell. You get the juice of many berries in a pint dessert.

Jiffy-Jell, Waukegan, Wisconsin

I have bought today two packages of Jiffy-Jell of my grocer and he has given me, without charge, one package in Loganberry or Pineapple flavor.

Write your name and address clearly

To the Grocer: We will pay you in cash your retail price for each of these coupons with one coupon. Send them to us at the end of the week, with your bill.

To the Housewife: Note that it will be a fraud on us to deliver to you a product that is not Jiffy-Jell on this coupon when we pay the grocer for it.

SONG ROLLS

Dear Miss Wise—I am a young man of twenty and am going with a girl about the same age. I have been with her six or eight times and think a great deal of her, but never mentioned it. She is a fine young lady, clean, intelligent and very capable.

The last month I have not been with her very much, but she always speaks, "How can I make her feel the same way? I never cared for any other girl. Do you think two dates a week too often? I don't want to be foolish, but

Clear Your Skin While You Sleep with Cuticura

expect to do my best to entertain her in the best way.

Is it the proper thing in case I do not see her for several days to call at the house or should I wait to be invited? Would you advise me to keep company with other girls, or would it be just as well not to since I care for her alone?

I believe in taking things slow, for I think this is a very important step in a woman's life.

What would you advise? I am willing to take advice from any older person.

JACK.

Two dates a week are not too often. When you have not seen the girl for several days, call at her home, but if she has a telephone phone and ask permission first. If you see that she is annoyed when you come, do not call again without asking permission.

I would not advise you to keep company with other girls, since you do not want to. Sometimes it is a good plan, but in your case does not seem necessary.

Do not tell the girl that you care for her until she shows by her attitude toward you that she cares for you. This is a matter which must be taken slowly. To make her care more for you keep her interested when you are together. Go to good places of amusement, and walking and picnicking when the weather permits. Take her candy every third or fourth time but not often enough to buy her affections.

If I were you I would not be so willing to take advice. Do your own thinking. Older people might give you helpful suggestions, but it is better to be independent and individual than to follow what some one else says you should do.

In regard to calling upon the girl, it would be a good plan when you are leaving her to ask when you can come again.

Dear Miss Wise—I am eighteen and care very much for a girl friend and she cares for me also, but my folks refuse to let me go with him. He is twenty years of age. My father says I am not old enough to go to dances and movies.

I have a brother sixteen and my father won't let him take me any place. Would you advise me to remain at home and do as my father advises, or leave home?

TROUBLED.

It seems to me that you are old enough to go out at least once in a while with a young man. Since your father objects, however, you are in a difficult position. Do not help on the subject. Submit to his wishes for a while and then appeal to him again. It would be unwise to leave home for a year or two.

If Michel said it, it's good.

Both Made Well by Lydia E. Pinkham's Vegetable Compound.

Stale, Ala.—"During the Change of Life I had hot flashes, was nervous, and had a headache for two or three days at a time. I took Lydia E. Pinkham's Vegetable Compound and I am much stronger, and better in every way than I was. My daughter's health broke down last June from teaching school without a rest, and she has taken Lydia E. Pinkham's Vegetable Compound and is much better and teaching now and I give your medicine the praise. You are welcome to see the letter for the benefit of other suffering women."—Mrs. F. A. GAINES, R.R. No. 1, Steele, Ala.

Women who suffer as Mrs. Gaines did need not hesitate to give this favorite remedy. Lydia E. Pinkham's Vegetable Compound is a trial, as it is a medicine that is constantly being given to women beyond question that it has done much to relieve suffering among women.

For confidential advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their forty years' experience is at your service.

Eye-Ball Curvature Un-Equal

In many cases of eye trouble that come under our observation we find with our modern equipment that the outside of the eye-ball is unequal, the rays of light passing through the meridian of greater curvature focus ahead of rays passing through the meridian of lesser curvature causing a blurred image to be formed on the retina of the eye. We have a special instrument for measuring this defect and special lenses to correct it.

ILLINOIS MINERS IDLE
SPRINGFIELD, Ill., Nov. 17.—Soft coal miners in Illinois were idle again today in furtherance of their strike for higher wages and shorter hours. The third week of the tie-up apparently found the idle workers in the state determined to stay out until secured of satisfactory wage agreement, despite the order of their officials resuming the strike call under court compulsion.

Some operators had held to the opinion that there might be a breaking away from the strike of a few miners with the opening of the present week, but early indications did not bear out this belief.

Deny New Contracts For Ammunition

MEXICO CITY, Sunday, Nov. 16.—Denial that General Camilo Aguilar, Mexican foreign minister, went to Europe to negotiate new contracts for munitions, is made by Juan Barragan, chief of staff for President Carranza. The statement says his errand was to arrange with factories in Belgium and Spain, either for shipment of arms and ammunition or the return of money paid as initial payments on contracts entered into during the Diaz and Huerta regimes.

The old contracts, adds the statement, called for arms and munitions now greatly advanced in price and the Mexican government, it says, merely wished to come to an understanding regarding the fulfillment of non-fulfillment of these old agreements.

Unable to Work Before Noon Till New-Worth Made Him Over
This eloquent statement was made to the New-Worth drummer at Fort St. George, Ohio.

"I was in Glenn Eaton's drug store and the demonstrator gave me a sample dose of New-Worth. After learning what New-Worth was for I purchased one bottle. Have taken it as directed. I am feeling so much improved I am buying a second bottle today and intend to keep taking New-Worth till I am cured, if possible. My trouble was nervousness and dizziness. In the morning I would be so dizzy and sick it would be noon before I would feel like work. The dizziness has left me that I can not get nervous and am feeling better in every way."

Mrs. Frank Maxton of Columbus spent the past week with friends in Jackson. She was a former resident of this city a sister of J. M. Downey former editor of the Journal.

Fur Hunters Pay Dear For Their Experience

Game Warden F. M. Cherrington made three arrests Nov. 13, that has thrown a bomb shell into the camp of fur hunters in this county. He accompanied by Deputy Sheriff Llewellyn D. Cherry and Marshal Thomas D. Jones of Oak Hill went to Madison township and arrested William B. Yates and Lester H. Long, then proceeded to Tryon in Madison and arrested John Edward Yates, all charged with violating the game laws. They were taken before Mayor Isaac N. Evans of Oak Hill and entering pleas of not guilty, all were taken to jail in Jackson, on failure to give bonds. After one night in jail they reconsidered their pleas of guilty. They had each a hunter's license but they went upon the lands of Thomas Barry and William H. Jones of Madison on Nov. 3, and were each fined ten dollars for hunting without a permit. They also due for slunking and were each fined fifteen dollars for that offense making total fines of \$25 each, and the cost in each case amounted to \$15.20, making a total of \$40.20 for each defendant or \$120.60 for the three. It is perhaps the first time that hunters without a permit and slunking for slunking have been taken before Mayor Isaac N. Evans of Oak Hill.

Stolen Shoes Are Found

The theft of a pair of ladies shoes from a shipment recently made by The Solly Shoe Company to Quinn Brook, Seville Mo., was revealed through the finding Sunday by William Long, Sturgill Run farmer, of the stolen footwear on the hill between Sturgill Hollow and Long Run. The shoes were found a short distance from the public road in the edge of some woods where they had been abandoned by the thieves. The case originally contained 22 pairs and only one pair was missing. The shoes were turned over to Sheriff Ricker. It is believed the shoes were stolen from a freight car.

Court House
Letters Cause Dismissal of Woman's Divorce Suit
Correspondence filed with ecclesiastical terms written by the fair plaintiff to a Portsmouth soldier boy and which were turned into the hands of the court, resulted in Judge Thomas today dismissing the divorce suit of Nellie McLaughlin against Cecil McLaughlin, whom she charged with wilful absence. They were married Nov. 21, 1914, and have been separated three years.

Brooks Gets Divorce
On the grounds of cruelty and infidelity, William Brooks, colored steelworker of New Boston, was granted a decree by Judge Thomas today, divorcing him from Ella Brooks, whom he married Feb. 4, 1917.

Brooks told the court that the defendant was too chummy with other men and finally ran away with another colored man. He said she spent his earnings in dissipation and carousal and on numerous occasions attacked and insulted him upon him.

Before granting the decree the court.

Dentist Sued
Dr. Edward Warner, dentist at South Webster, was made defendant in an action filed in common pleas court today by Henrietta Potts South Webster woman, who is demanding \$5,000 damages for alleged malpractice.

The plaintiff in her petition declares that on account of the alleged carelessness and negligence of the defendant in the treatment of her teeth, she suffered complete physical and nervous prostration, endured excruciating pain and was confined to her bed for days at a time. She sued through Attorney Theo. K. Funk.

EXPRESS SIDESWIPES FREIGHT
LANCASTER, Pa., Nov. 17.—One man is dead, another dying and several more were injured today as a result of the side swiping of a freight train by the Buffalo express on the Pennsylvania railroad near here. The trains were east bound. Both engines were overcast and the fireman of the freight was scalded to death. A trainman is believed to be buried in the wreckage. Another trainman is in a dying condition.

NEGROES AS CENSUS TAKERS
NEW YORK, Nov. 17.—Negroes will be engaged as federal census takers in sections where they form the largest element of the population for the first time in history, Arthur G. Dore, United States supervisor of census, announced today. Preference will be given to negroes who were in the military service. Mr. Dore said that representative negroes had informed him that there had never been an accurate counting of the negroes of this country. This is due, they complained to the fact that white enumerators classified as "white" those negro men and women of light color.

NEURV TROUBLE AT BOTTOM OF WEAKENED CONDITION OF MRS. HENTHORN
Noise Of Children Put Nerves On Edge
Vola-Tonic Helped Nerves and Digestion and She Feels Strong Now.

Nerve trouble probably was at the bottom of the weakened, run-down feeling suffered for years by Mrs. Lula Henthorn, of 623 Vernon street, Ironton, O., and which she described a few days ago. She said she had been nervous and weakened for years, but that she can do all her household work with ease since taking Vola-Tonic, "Builder Of Strength."

"My nerves were so bad that for months I couldn't get a good night's rest," Mrs. Henthorn said. "I just tossed and rolled from one side of the bed to the other. During the day the least noise the children made at their play would just put my nerves on edge. I felt so faint and weak that I often had to sit down and rest."

"My appetite was poor, too, and nothing I ate digested right."

"Vola-Tonic has helped my nerves and strengthened me so much all over that I am doing all my household work, even my washing, and it seems easy for me."

"My nerves are in so much better condition that I sleep fine nights and the noise of the children during the day never bothers me."

"Vola-Tonic brought me a wonderful appetite, too, and helped my stomach so much that I can eat anything I want without indigestion."

To have strength you must have good nerves. Nerves control the sending of nutrition that keeps organs and tissues of the body built up to full strength, and nerves also control sleep, which, during the night, enables the body to restore the energy used up by work during the day. As in the case of Mrs. Henthorn, Vola-Tonic "Builder Of Strength" soothes and strengthens the nerves of weakened and run-down men and women. Vola-Tonic also brings a healthy appetite, an excellent digestion and good, rich blood—the other three things necessary to have strength. In time, Vola-Tonic builds up the body and system all over to full normal strength.

Many local people are now calling daily at The Fisher & Streich Drug Store, where the Vola-Tonic expert is explaining Vola-Tonic and the results that may be expected from its use.

"PRIZE" BORAX SOAP

Ohio wash days are harder because Ohio water is harder—except for those who know the quick cleansing power of this specially made Ohio soap.

Borax and Naphtha in this "Prize" blend do the work.

Tonight at seven-thirty all the workers who have volunteered their services in the Chamber of Commerce drive for memberships—the Peptomists—will gather at the Campaign Headquarters at the corner of Chillicothe and Second streets to receive final instructions for the drive, which is to commence at 9:30 Tuesday morning. The meeting will be characterized by singing of the campaign songs and the drawing of the different districts by the team captains will take place. In order that no favoritism may be shown, the prospect cards for the different districts have been routed geographically, and the districts lettered. The letters will be shaken up in a hat,

and each captain will draw, without knowing in what part of the city his district lies until he examines his cards after drawing. This is to avoid the deliberate picking of the business district by any one team, as that is, of course, the most profitable territory from a standpoint of possible memberships.

Tuesday morning all Peptomists will gather at headquarters promptly at nine-thirty, and will march in a body up Chillicothe street to the Post Office. Here they will wait while a group photograph is taken, and then each team will leave to spend the next two hours in working its own district. At eleven-thirty the march will stop, and all the workers will meet at the United Brethren Church for lunch. At this time the captains will render reports of the first morning's work, which is anticipated by the executive committee, will run well up in the hundreds. At this meeting Judge Roy H. Williams, of Sandusky, will give a brief talk on Chamber of Commerce organization, and what it means to a city. All interested citizens are invited to attend this meeting and enjoy the fun of the reports and the talk, whether they be workers or not.

DEFENDS WELLSTON

Editor Daily Times: Will you allow me to say a few words in defense of "Wellston" who forfeited the football game to P. H. S. Saturday. Coach Hest only tells one side of the story. Wellston was hopelessly beaten, but they were ready and willing to fight and finish the game. If Portsmouth would pay their expenses, this Portsmouth absolutely refused to do, saying they would pay just what their contract called for, railroad fare and two meals. It seems to me that it was up to Portsmouth to either arrange the game, so that the Wellston boys could catch their train, or else pay their expenses over night. I have always understood that the visiting team had expenses paid. In this case expenses paid meant hotel bill over night and breakfast, or a different schedule for the game. Your reporter lays great stress on the disappointment of the crowd at not seeing a full game. This disappointment could have been overcome quite easily by the expenditure of a few dollars for a night's lodging for the Wellston team.

Blank Verse.
Evidently some of the blank verse we used to read in school was so called as a slight tribute to the minds that wrote it.

11 HENS LAY 221 EGGS A MONTH

Mrs. Young Almost Gave Up Raising Chickens. Then She Tried This Plan.

"When I accepted your offer and tried Don Sung, I had been getting 1 or 2 eggs every other day. The next month, using 50 cents worth of Don Sung, my 11 hens laid 221 eggs. I almost gave up raising chickens, but now I have decided to raise as many as I can."—Mrs. F. C. Young, Bellefonte, Pa.

Feed too expensive to waste on this hen. You can easily start your hens laying and keep them laying, even in coldest winter. To prove it, all you need do is accept our offer, as Mrs. Young did.

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, tell us and your money will be promptly refunded.

Don Sung (Chickens for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package, we will send it.

PORTSMOUTH'S POSSIBILITIES UNLIMITED

Campaigner No. 8
A memorable character in the early history of Scioto County and an important factor in its growth, was Captain William Lucas, one of the aristocracy of Old Virginia, and a captain in the Revolutionary War.

In 1809 Captain Lucas moved his family into the Ohio Valley and settled where Lucasville now stands, bringing with him a large number of

negroes who had formerly been his slaves, but who, of course, became free upon moving into the Northwest Territory. Long afterward they were known as "Lucas Negroes."

Lucas was a Jeffersonian Democrat, and before starting west he had cast his ballot for Thomas Jefferson, who was presidential candidate against John Adams, then competing his first term. Journeying westward, the

captain put up at a tavern where the landlord was as strong a Democrat as he. In those days, election returns were slow coming in, and neither of the men knew what the outcome of the election had been until a traveler came along and brought the news of Jefferson's victory.

The news was so good that there seemed to be no filling way to celebrate it, save to get gloriously drunk,

which they proceeded to do, as many others have done after them.

Party interests ran high in those days, as now. But there must be some medium in which all the citizens of all parties can get together, forgetting party interests, and work for the good of the whole community, for the further development of Portsmouth's possibilities Unlimited. The Chamber of Commerce is that medium.

MUCH INTEREST IN THE SENATE'S RESERVATIONS

PARIS, Nov. 17.—The news of the adoption by the United States senate of ten reservations to the German peace treaty was received with great interest in peace conference circles.

The point apparently being most discussed by the delegates in general is as to whether the senate will ultimately insist upon the reservations being formally approved by the other governments as now specified in the preamble. In French circles the indications are that the French government is not prepared to give its formal approval.

There likewise is much speculation as to how far the American reservations might possibly affect the reservations of the minor powers, such as China, Rumania and Yugo-Slavia, desiring to make

China has never signed the German peace treaty. The Chinese delegates offered to sign it subject to a reservation on the question of Shantung, but were not permitted to do so. Rumania and Yugo-Slavia did not sign the Austrian peace treaty, taking exception to the clause regarding the protection of racial minorities.

800 MEN ENTER PLANT
STEUBENVILLE, O., Nov. 17.—Eight hundred men entered the La Belle Iron Works here this morning to do repair work. The plant was completely closed since the calling of the strike on September 22. It is evident that operations are soon to be resumed.

TO RESUME WORK
MINGO JUNCTION, O., Nov. 17.—The 10 inch mill in the Carnegie Steel Works here resumed operations this morning. Other departments are scheduled to resume later this week.

The furnaces will start as soon as sufficient coal supply can be secured. Eight hundred of the twelve hundred employees were back in the plant this morning.

Dazzling Speed Of N. & W. Team Bewilders Ft. Thomas

Before a large crowd of enthusiastic football fans the N. & W. football team defeated the Ft. Thomas team in a game played at the local stadium Sunday afternoon. The N. & W. team, which is coached by Coach J. H. Thomas, played a brand of football that kept the local fans on their feet. The local team, which is coached by Coach J. H. Thomas, played a brand of football that kept the local fans on their feet.

The N. & W. team played a stellar game both on defense and offense. The visitors never had a chance on the local starting their scoring machine to work before Ft. Thomas was awake to the fact that they were up against real football players. The local team, which is coached by Coach J. H. Thomas, played a brand of football that kept the local fans on their feet. The local team, which is coached by Coach J. H. Thomas, played a brand of football that kept the local fans on their feet.

Johnson was partially blocked but Johnson caught it, this play bringing the local team back to the three yard line. A line plunge but failed to kick goal. This ended the first quarter. In the next quarter the local team got the ball over twice but only once was let go. A forward pass to Adams, good for 15 yards, placed the local team within striking distance of another score. Line plunges took the ball within a few yards of the goal and another pass was tried. The ball was behind the goal but it bounced off Phillips' head into Adams' arms. Adams kicked but failed to kick goal but later this score was pulled out, the pass being illegal.

Before the quarter ended the ball was again brought down the field from the middle of the field by a series of line plunges, Pierce making the biggest gains through the line. One of his plunges was good for 11 yards. Montgomery took the place over from the three foot line, the play being made between the uprights of the goal. He also kicked goal. Helmer Johnson and Pierce.

Junior Boys Hang Defeat On Loyal Men's Class

That boys can do things when they set their heads to the task was shown Sunday, when the Junior Boys' class of the First Christian church Bible school triumphed over the Loyal Men's class by the score of 103 to 97. The boys had worked hard for an attendance of 100, and while they had been working diligently they had not been asleep. The latter did not believe it possible for the boys to reach the century mark in attendance, and hence the shock of defeat was all the more severe. At the conclusion of the Bible School study period the boys, led by their superintendent, Geo. W. Edwards, and his faithful assistant, Owen Hopkins, occupied the platform, where they were given three rousing cheers by the entire school. The boys retailed with the song, "Keep Street," sung with volume and enthusiasm. The men's quartette came back heartily and all in all the occasion was check full of vigor and "pop." The boys gave the men to understand they had just started to fight and that next Sunday they would have not less than 200 in attendance. To overcome this threatened handicap, the men are to hold a big meeting at the church on tomorrow evening, when a reception will be tendered the returned soldier boys. A fine program has been prepared and a large crowd is expected. The men have a lead of only 63, but the boys say they are going to wipe that out next Sunday and then go out after a crowd of 500. It is likely the boys will meet at some local theater in two weeks, for their quarters at the church are not adequate to accommodate more than 200, if that many. Should the boys win the contest they will be given a big chicken dinner with all the trimmings and each man in the Loyal Men's class has agreed to purchase a ticket to a stereoscopic entertainment to be given in the main auditorium of the church shortly after the contest comes to a close.

N. & W. Team Praised

Members of the Ft. Thomas team admitted last night that the N. & W. team was one of the best they have ever seen in action this year.

Scout Wrestlers Will Meet

Andrew Stenhamer and Lawrence Kimmble, respective heavy and light weight champions of Troop 8, will meet John Horvort and Selby Sadler of Troop 3 this evening. In a friendly wrestling match. The match will be staged at the Franklin Avenue church at 8 o'clock.

A NEED THAT IS FORGOTTEN

THE school children are taking a keen interest in the formation of a chamber of commerce. In response to inquiries they have furnished suggestions of improvement and betterment that would furnish a worthy program for any organization and that would be a great credit to work up to and accomplish.

It is singular though, that while the topics submitted by the pupils covered a large and varied field of activities, not one submitted that he would like to see Portsmouth have a new railway station.

Yet there isn't a need more palpable and few as imperative, in making Portsmouth a better and brighter town.

People judge by appearances and it is hard to get them away from first impressions. Sorry, indeed, then must be the opinion the visitor must form of Portsmouth, when he drops off of the train at Tenth and Waller for the first time. In the first place it is pretty much like stepping from a street car at a bedraggled corner and, if perchance he enters the dismal hole of a depot building it is worse.

About four years ago the Norfolk and Western management was going through the motions as though it meant to atone for all innumerable "next year" promises by giving us the finest station on its system, but the war stopped the company short of operations, so it was paid and nothing beyond the requirement of some land for the proposed site was accomplished.

President Wilson says he is going to turn the roads back to the stockholders January 1st. That will be enough of a coincident with the birth of the chamber of commerce, which can excellently celebrate its first anniversary by making it special business to have work started on that new station next year, with no quotation marks to make it ironical.

THE ROUND OF RED TAPE

IN many papers appeared recently a news item containing the substance of a general governmental order, stating that departments are instructed that when one has material, articles or equipment in surplus, it shall first dispose of the same, if possible, to some other department at a reasonable price, but in no instance shall this price equal the first buying price.

This brings up a useless, curious, a cumbersome and a costly way the government has of doing business. For by it no exchange and no transferring is allowed two different departments. That is to say if the war department has something it has no use for, but the treasury could handle it to advantage the war department can not say, "Take it," but there must be a bargain for price and that established must be paid by check which the selling department must debit itself by so much cash received and the buyer credit itself with so much money paid out. Money does actually pass by swelling one fund and decreasing another. But that is as far as it goes, the process being about as resultant as changing money from the right to the left pocket. For the government pays all bills in the finally and departments are but mere adjuncts of government.

This policy of operation sometimes reaches to bad conditions and costly results. Postoffice buildings, for instance, built by the government, are not under the control of the postoffice department, but under the treasury, through which all expenses of equipment, furnishing and maintaining are paid. The treasury decrees what representatives of other departments may have quarters in the building. If the government rents a building for post-office purposes the postoffice department has exclusive charge of it, does all the equipping and pays all the expenses of operation.

Before the order referred to, there seemed to be no way of transferring property from one department to another without the process of advertising and bidding, which was often costly, so it seems these days when even the government is pulling away from archaic methods.

Speaking of pupils and chamber of commerce just buds in us the hope that when the latter body starts out on its career of usefulness and glory, one of the first things to concern it will be a nice, straight, white painted flag pole to replace the gauged, crooked and dingy brown one the pupils have set up on the high school lawn, which we fear Old Glory will never feel her proudest upon as she surely will never look it.

Oh, it is always another thing rising to vex us soon as we get rid of one. Here with the tiff on hurried up time quite forgot, comes the proposition to measure the day by twenty-four points instead of double twelve. After a time the newspapers will be agitating it and the hat will be passing 'round.

SHE MARRIED AN AVERAGE MAN

Jim is practically well again. I can think that when he was himself no longer make his illness an excuse again things would all be right. But for not going to Athens, Miss. Yet this unjust snore made the blood beat Jim obstinately refuses to accompany in my temples.

me and meet Eric Sands. I have tried "I had forgotten it," I said, "but to make him see that if he does not go your reminding me makes me also re- with me people will think it odd. I remember the box of letters that you "I refuse to be made a monkey of," said were 'business junk' and which I said Jim for the tenth time. "Either come across the other day in cleaning you are my wife or this man's lover, the hall closet. Perhaps those are from if you are my wife, you will not care Mrs. Frisbie?"

to meet this old sweetheart of yours. It was nasty of me. But I don't if you choose to meet him, I shall be a pretend to be an angel person, a sweet, zeere husband, a spineless creature, a unreflexible calid. I'm just an ordin- henpeck, a tame cat, a thing to be pit- ary woman, with red hair and a tem- led or laughed at."

"Jim how can you talk that way? You insist upon creating a false situ- tion. If I meet Eric Sands I shall be self-conscious and miserable. If I re- fuse to meet him, it will be like shou- ling to the world that I am afraid be- cause of something between us. And it isn't so, Jim! There is nothing be- tween Eric and me except—"

"Except—except!" Jim broke in. "Nothing except that he holds for you an attraction that I do not. You can't Sands?" asked Jim, doggedly.

"Jim, darling, you're doing us all great wrong! You're actually forcing me to think things I do not want to think. Please, dear, be reasonable. Let us all be friends together. Aren't there any women you knew before you met me for whom you hold a sort of affection—perhaps a feeling of grati- tude and comradeship?"

"I realize now I shouldn't have said this. But I had not thought of any special person in mind."

"I suppose you mean Fanny Frisbie, the woman I bought the purse for last Christmas—you've never forgotten that, have you?"

"It made me furious to have him mis- understand me so. Heretofore I have viewed his obnoxious as in part a re- sult of his illness. I have been patient

New York Day - By - Day

BY

O. O. McINTYRE

NEW YORK, Nov. 17.—A page from Mr. Merrick, which I did not like so the diary of a modern Samuel Pepys: well, as others he hath writ. And so to bed.

Up and to the tailor and for good bus- bandry took two suits to be turned. There is at least one class of New York's aristocracy, which rises be- tween tricks of drink adulterators and the girls of deeper age, out in smart finery, and prominent they are. Edna Ferner comes from Chicago and tells me she will go to see her new moving around the bridge path in Central Park.

Through the town and came upon Edna Cantor, the comic actor, who had a great coat of seal brown and big patched pockets and white pearl but- tons and I made bold to offer him my tawny coat and a kumby but the vain fellow laughed. All I hear throughout the town is complaints of being unable to get a sip of beer or goblet of wine and strangely by many I never sus- pected of tipping.

Home where I was mightily pleased with the company present. Mistress Louise being in especial radiant and my wife, poor wretch in her new cloak of henna, very fetching. I did fashion several well turned japeries and all mighty merry with good music play- ing and excellent cake which cost me 10s and a noble sack poset.

In the afternoon to see "Clarence" in a playhouse and like it mightily fine. On the way home I met Earl Carroll, the song writer, and Mistress Marcelle and they begged me to walk twice around the reservoir and I did and we had a right merry time with what with that and rag tag and bobtail. Home where I finished reading a book by

It is indeed a small world. The other day I went down in the elevator in my building with Morgan Kingston, the Metropolitan tenor. We discussed the weather. Three days later in the din- ing room of the Hotel Bonhous in St. Joseph, Mo. Mr. Kingston sat at the adjoining table. Again we dis- cussed the weather.

Already the New York bootleggers are being criticized by their clients. One such surreptitious salesman has a patron, so it is reported, who threat-

ens to turn him over to the law if he doesn't mix less tobacco with the fuel oil he serves.

Jewelers along Fifth Avenue are do- ing the biggest business in history. With prices for gems sky-rocketing, the demand is greater each day. One diamond merchant tells of a man with a pick coming into his place on his way home Saturday night and pur- chasing a diamond ring for \$1,600. "Just a little present for my old woman," he said.

If All Went On a Strike
I wonder what would happen
If we all went on a strike,
And everyone refused to touch
A job he didn't like?

What if the cows and chickens quit,
And wheat refused to grow,
And corn and clover threw a fit,
And wind just wouldn't blow?

Mankind has such an easy life
He thinks he owns the earth
If these things happened he would
Learn
How little he is worth!

WHO'S WHO

MRS. HOPE OF LUTHERS
The beautiful Mrs Hope of Lut-
ners, who leaped into great
prominence by campaigning
against ex-President Asquith in the
historic general election of Decem-
ber last, and later had further no-
turity of a less desirable kind, is
again in the news in consequence
of her engagement, which has just
been announced. Her second hus-
band will be Colonel Clement
Freke, Clark, youngest son of the
late Lord Godfrey Clark, a Scot-
tish magnate of Tullymore.

Mrs. Hope of Lutners

Mrs. Hope, who
aspired to secure
nominations as an
independent candi-
diate for East
Essex, the constituency which Mr. As-
quith represented in parliament for
so many years, is the widow of a
gallant British officer who, long
"unlucky" was finally legally pre-
sumed to be dead. Colonel Hope was
a nephew of Lord Rosebery and was
otherwise connected with some of
the most socially notable families in
Great Britain. His widow is ac-
counted to be one of the handsomest
women of her day.

Mrs. Hope's campaign ended in a
fiasco, her candidature not being al-
lowed on the ground that she was
able only to offer a check, and not
cash, for the sum of \$750, which
every parliamentary candidate is
obliged to pay in, to cover election
expenses, and which is forfeited if
the candidate fails to poll one-third
of the votes cast.

A sensational sequel came a couple
of months later, when the trustees
of the late Colonel Hope petitioned
the Edinburgh court of sessions to
remove Mrs. Hope from the office of
guardian of her two children, on the
ground that she was "entirely unfit"
to be intrusted with them. Mrs. Hope
was then stated to have been guilty
of immoral conduct and to be addic-
ted to the excessive use of alcohol.

She was charged with associating
with undesirable persons, and with
habitually ill treating her children,
and conducting herself before them
in a manner calculated seriously to
prejudice their health and morals.

Extraordinary evidence in support
of these allegations was forthcoming,
and as a result a new guardian, in
the person of Lady Mary Hope, Col-
onel Hope's mother, was appointed
by the court.

An Eye To Business

Sweet Young Thing—Father, please
let me marry Jim. He's so neat—why,
when he was in France he got two
medals for cleaning out dugouts and
mopping up.—American Legion.

An Acceptable Speech
"James is the finest after-dinner
speaker I ever heard."
"So?"
"Yes. He always says, 'Waiter, give
that check to me.'—American Legion.

Back in "Civics"
Hard-boiled Topper—"As you were
men!"
Voice in rear rank—"Wish I was as
I was, then I wouldn't be here."—Am-
erican Legion.

No Sleep For Him
"Yesterday," said Jabson, "I re-
fused a poor woman a request for a
small sum of money and in conse-
quence of my act, I passed a sleepless
night. The tones of her voice were
ringing in my ears the whole time!"
"Your softness of heart does you
credit. Who was the woman, asked
Mabson.
"My wife."

Best Thing To Do
The theater was in an uproar.
"They're calling for the author," said
the stage manager.
"Oh, I can't make a speech," replied
the man responsible for the play.
"Well, just go in front and tell 'em
you're sorry."

Gentle Hint
"What a beautiful dog, Miss Ethel!"
exclaimed her bashful admirer. "Is he
affectionate?"

Stage Gambling Raid
HUNTINGTON, Nov. 17.—In a gam-
bling raid conducted in West Hunting-
ton yesterday afternoon, fifteen men,
between the ages of seventeen and
twenty-two were placed under arrest.
In rounding up the gamblers, Chief
Coon took Officers Caldwell, Sanson,
Baker, Cressie and Compton to the
place where the men were thought to
be. Here the city coppers advanced on
one side and the gamblers found that
they were entirely surrounded. The
river prohibited their escape on the
one side and mud holes and fences
blocked progress on the other two.

ONLY COMPROMISE CAN SAVE PEACE TREATY FROM REJECTION

Hitchcock Again To Confer With President Wilson

WASHINGTON, Nov. 17.—With a final roll call on ratification of the peace treaty imminent, the outcome of which today upon eleven hour efforts to bring a compromise between the administration forces and the mild reservations on the Republican side of the senate.

Unless such a compromise could be reached it was predicted in all quarters that the treaty would be rejected.

Democratic leader Hitchcock arranged to call at the White House before the senate met to lay before President Wilson his latest information on the present situation and to inquire what reservations the president would be willing to accept as part of the ratification. Some of the majority group in already adopted by the senate the president has declared he would regard as devastating the treaty, and unless something develops to change their views his supporters in the senate intend to vote against ratification with these qualifications included.

The situation was also beleaguered by a parliamentary disagreement. Vice President Marshall and the Democratic leaders holding that a less drastic ratification resolution can be voted on after one has been defeated, and the Republicans declaring they have the majority to override any such effort.

Two of the committee reservations remained to be acted on at the beginning of today's session. They related to the German colonies and to certain vital interests of the United States, which would be excluded from future action. Many reservations by individual senators are to be considered after completion of the committee program, but with closure in effect, it was thought a final vote would not be long delayed.

Most senators predicted it would be reached tomorrow or Wednesday.

STRIKERS OUT IN FORCE

YOUNGSTOWN, O., Nov. 17.—After pickets had nearly disappeared about the steel plants here last week, the strikers were out in force this morning, it being estimated that six thousand men filled the streets near the mill gates. For the first time since the strike began the union organizers themselves were in charge. A number of minor clashes took place as a result of which three men are in the hospital, but as a rule the strikers were orderly. Mill operation was somewhat increased.

37 Radicals Arrested

FAIRMONT, W. VA., Nov. 17.—Thirty-seven alleged radical agitators arrested in this region during the past three days by agents of the department of justice and county officers, are in the Marion and Monongalia county jails today awaiting deportation proceedings which, according to federal authorities, will be started in the immediate future. Twelve of the prisoners were taken in this late Sunday at Thomas and Farmington.

NEW YORK STATE HAS AN ASSEMBLYWOMAN

Miss Margaret L. Smith.

Miss Margaret L. Smith has been elected by the Republicans of the Nineteenth New York assembly district to represent them in Albany. Miss Smith is but 25 years old. She has done excellent work as a teacher of physical training in New York schools and as a member of her local draft board. She is especially interested in legislation affecting the health of the people and in rent profiteers. Miss Smith is the only woman to be elected to the assembly, two former assemblywomen being defeated for re-election.

ARREST CONSULAR AGENT

MEXICO CITY, Sunday, Nov. 16.—(By the Associated Press)—Dispatches from Puebla today assert that William O. Jenkins, American consular agent at Puebla, although technically under arrest, charged with false statements in connection with his recent abduction by Benito Leader Federico Corrovera, by order of the state's attorney, is given freedom of the entire city, with no bail required, the officers accepting his word he will not leave Puebla until court proceedings are completed.

Jenkins, following his arrest, requested to be lodged in jail until the matter was finally settled, but the officials refused. It is expected a preliminary hearing will take place Monday.

REDS CLAIM OMSK TAKEN

LONDON, Nov. 17.—The capture of Omsk by Russian civil forces, unofficially denied in advance, through Seaulovsk yesterday, is reiterated in a Bolshevik communiqué received by wireless from Moscow today. Severe street fighting preceded the capture and more than 1,000 prisoners were taken by the Bolsheviks. It is alleged.

The Kolchak forces retreated eastward in disorder, says the statement, which also claims the capture of Krasnoyarsk from the all-Russian troops. In the Baltic region, it is announced, after the capture of Yamburg, the Bolsheviks continue to advance and are pursuing General Yudenich's troops.

POET-AVIATOR'S EXPLOIT MAKES HIM MASTER OF ENTIRE DALMATIAN COAST

PIUM, Sunday, Nov. 16.—(By the Associated Press)—Galeo D'Annunzio's latest exploit appears to have made him master of the entire Dalmatian coast. It secured the adherence to his side, it has developed, of Admiral Millo, commander of the Italian occupation forces in Dalmatia, thus giving D'Annunzio a command not from the Austro-Italian armistice line north of Fiume, southward to Lignea, just to the north of Gethule covering all the approaches to the Dalmatian coast. Four warships including a dreadnaught and four torpedo boat destroyers, have been added to the D'Annunzio naval command, giving him a formidable weapon with which to maintain his present position. It is announced D'Annunzio will occupy all of Istria, including the regions Foreign Minister Tittoni proposes shall comprise an independent state. D'Annunzio returned here Saturday night from his expedition to Zara on the Dalmatian coast. He left the Garrison at Zara commanded by one of his officers.

ILLINOIS MINERS IDLE

SPRINGFIELD, Ill., Nov. 17.—Soft coal mines in Illinois were idling today in furtherance of their strike for higher wages and shorter hours. The third week of the "cup up" recently found the mine workers in this state determined to stay out until assured of a satisfactory wage agreement, despite the order of their official in rescinding the strike call under court compulsion.

Some operators had held to the opinion that there might be a breaking away from the strike of a few miners with the opening of the present week, but early lead cautious did not bear out this belief.

I. W. W. REFUGEES IN CABIN HOLD POSSE AT BAY

CENTRALIA, WASH., Nov. 17.—Former service men and workmen members of a posse attempting to arrest alleged I. W. W. awaited reinforcements from here before attempting today to storm a hunters' cabin on the head waters of Hinneston creek, 18 miles northeast of here in which it was believed the men they sought had taken refuge.

Since Saturday night possmen have guarded all outlets from the dense woods surrounding the cabin, some where in which is believed to be the body of John Henry a possmen misadventure in disorder, says the statement, which also claims the capture of Krasnoyarsk from the all-Russian troops. In the Baltic region, it is announced, after the capture of Yamburg, the Bolsheviks continue to advance and are pursuing General Yudenich's troops.

COAL SITUATION RAPIDLY BECOMING ACUTE AS THE MINERS REFUSE TO WORK

CHICAGO, Nov. 18.—While operators and union leaders had predicted resumption today of mining on a large scale in the bituminous coal fields of the country where more than 400,000 miners have been on strike for 16 days only in West Virginia were both sides confident that "all the men" would be back at work during the day.

In the other large producing fields, the men showed a disposition in readiness to await further results of the conference at Washington of operators and union officials over a new wage agreement before returning to work.

In the meantime, a threatened coal shortage in the midwest has caused the regional coal committees to consider means of conserving fuel.

In Indiana an order prepared by the public service commission, relieving lightless nights and heatless days of war time, is to go into effect tonight.

DISPUTE OVER SHIPS

PARIS, Nov. 17.—The status of the Emperor and other German ships, aggregating 170,000 tons, now in the possession of the United States, was discussed by the supreme council today, but no action was taken. Great Britain has claimed that the action of the United States, shipping board in releasing the vessels, violates the agreement in the council that they should be turned over to the British as soon as they had finished transporting American troops.

NEW YORK, Nov. 17.—Lieutenant R. W. Maynard, winner of the recent transcontinental air race, announced today that he expects to start within the next eight days on his attempt at a non-stop flight from coast to coast. He hopes to cover 1,500 miles or better in a single hop with a remodeled De Havilland plane which has been named the Greyhound.

OPENING STOCKS

NEW YORK, Nov. 17.—The strength of investment calls, not by Union Pacific, was the only important offset to an otherwise heavy tone at the opening of today's stock market. Prominent features of last week's severe liquidating movement reflected further pressure, due probably to renewed selling for both accounts. The motor division reacted 2 to 4 points and is dropped 1 to 3. Steels 1 to 2, and equipments 1 to 3. Active spec titles, including tobaccos also sagged. Trading was dull in contrast to recent excited sessions.

Dazzling Speed Of N. & W. Team Bewilders Ft. Thomas

Soldier Team Defeated By Big Score At Millbrook

A large crowd of enthusiastic football fans gathered at Millbrook to witness the game between the N. & W. team and the Ft. Thomas team. The N. & W. team, known for its dazzling speed, defeated the Ft. Thomas team by a big score of 40 to 0. The game was played on a field that was well-maintained and the weather was perfect. The N. & W. team's players were in excellent form and their speed was a major factor in their victory. The Ft. Thomas team, on the other hand, was out of sync and their defense was easily broken through. The game was a real treat for the fans and it was a well-deserved victory for the N. & W. team.

PENNY ANTE

Explaining Geysers.

In a word, the whole secret of the intermittent geyser lies in a subterranean reservoir, the contents of which are forced out by steam expansion every time it gets filled up. The Yellowstone park is a region which not so very long ago was fiercely volcanic. In that role it has ceased to play an alarming part, but locally the earth's crust is extremely thin. A very literal hell rises not far beneath the placid frequented by tourists, and thence is derived the heat that causes the outbursts of the geysers.

Junior Boys Hang Defeat On Loyal Men's Class

That boys can do things when they get their heads to the task was shown Sunday, when the Junior Boys' class of the First Christian church, Bible school triumphed over the Loyal Men's class by the score of 10 to 5. The boys had worked hard for an attendance of 100, and while they had been working diligently the men had not been working at all. The boys' victory was a real surprise to everyone and it was a well-deserved victory for the Junior Boys' class. The Loyal Men's class, on the other hand, was out of sync and their defense was easily broken through. The game was a real treat for the fans and it was a well-deserved victory for the Junior Boys' class.

The arrival of Jimmy White, the popular English flyweight boxer, in this country aroused considerable interest in sporting circles, and the ring followers are predicting that Jim will reap a rich harvest of American dollars, despite the fact that the little man says that he comes to America to rest more than to seek fame and fortune in the Queensberry game. Snakes Numerous in Idaho

Pennsylvania, one of the most prolific sections for rattlers, has at least one large snakehead tanager and keeps hosts of people slaughtering rattlesnakes. Idaho, however, is the banner rattlesnake section of the country. Idaho has great ridges of rocks, in which are deep holes, cracks and caves. Herein rattlers breed by the thousands and offer a vast industry for rattler harvesters.

Money in Blueberries

The average profit from an acre of Maine blueberry land is said to be about \$100, and as no fertilizer or cultivation is necessary these berries are a quick and profitable crop. This is one of Washington county's big industries. For instance, the whole section from Porcupine mountain to the east Macias line is practically all blueberry land. Several factories are devoted to the canning of the berries.

Turtle Unstops Sewer

To open a stopped-up sewer pipe, Frank Ward of Richmond, Mo., caught a small turtle and cut a small hole in its shell. Then he tied a string to the hole and started the turtle through the sewer pipe. Whenever the turtle stopped a pull on the string started it clawing its way forward again until the pipe was clear.

Birds Driven by Storms.
Certain instances of birds found flying far to the north of their usual range are possibly to be explained by the whirl of cyclonic storms. The wind, turning counter clockwise, blows ashore in the south and carries the birds out to sea. But, sooner or later, if the bird has the good fortune to just out the experience, the farther up of the storm tends to bring him ashore again.

Still Searching for Atlantis.
Phoenician tradition ascribed to the people of Atlantis a high civilization. During the last few years scientific expeditions, in pursuit of natural history "specimens," have made explorations of the sea bottom in that region. How interesting it would be if their drag-nets brought up from the depths some ancient relics from drowned towns of the lost continent.

TEA ROOM IS OPENED IN CONSTANTINOPLE BY NEW YORK GIRL TO CHEER SOLDIERS

Miss Rose Wilson.

A tea room to compete with Constantinople's famous coffee houses as a rendezvous for allied soldiers has been opened by Miss Rose Wilson of New York, according to a letter received at the New York office of Near East Relief. The institution was modeled after its American prototype, the cafe, and its popularity was instantaneous and widespread. It has become a meeting place for soldiers and civilians alike, and it is a place where the soldiers can find comfort and relaxation. Miss Wilson's tea room is a real treat for the soldiers and it is a well-deserved victory for her.

Same Old Circus.

Member the old farmer woman with the umbrella and the ringy clothes who wanders round the fairs just after the show begins, looking desperately into the audience calling "Albert! Albert, where are you, Albert?" And the policeman tells her to move on and she beats up the policeman and her wig and petticoats come off (down to the red flannel one) and she isn't old or a lady either, after all! Well, she is still there.—Everybody's Magazine.

Brass Most Useful Alloy.

Brass is perhaps the best known and most useful alloy. It is formed by fusing together copper and zinc. Different proportions of these metals produce brasses possessing marked distinctive properties. The proportions of the different ingredients are seldom precisely alike; these depend upon the requirements of various uses for which the alloys are intended. Peculiar qualities of the constituent metals also exercise influence on the results.

Sturdy Old Italian Dame.

The women of the lower classes in Italy are industrious workers. They have to be, and do all sorts of laborious and unenviable tasks, according to our American ideas. In fact, the traveler in Italy is almost convinced that the women do all the work while the men do the talking. And so he comes to feminine activity, for one old crowd at least eagerly, to judge from her wrinkled face and tottering steps, was photographed carrying an immense basket of figs, all alone, across one of the busiest streets in lovely Lugano in Italy.

Marking's Debt to Reading.

"Have you ever rightly considered what the more ability to read means?" asked James Russell Lowell, and elaborated his own question: "That it is the key which admits us to the whole world of thought and fancy and imagination; to the company of saint and sage, of the wisest and the wisest of all their wisest, to suffer with the wisest eyes, hear with the wisest ears, and listen to the sweetest voices of all time? More than that it abolishes time and space for us."

New Kind.

Little Frederick, Gre, was visiting their neighbor across the way and told Mrs. Smith with a new pair of eyes. "Oh, comma," he exclaimed on arriving home, "I went over to see Mrs. Smith and she wears looking glasses on her eyes."

IS ONLY WOMAN CURB OPERATOR

Miss Belle Neumann is shown here sitting at her desk in the office of one of her assistants in the street.

Women on the stock market, women in the financial world, in the banks, brokerage houses and such offices are not unusual nowadays, but women on the curb market are a new thing and novel innovation. Miss Belle Neumann is said to be the only woman curb operator in New York City. She operates for one of the biggest houses in the country and is still in her teens.

First Overhead Trolley.

The first practical overhead trolley line was built in Kansas City in 1888, in which double overhead conductors were used with a trolley wheel riding on top of the wire. In 1883 a third-rail line was constructed in Baltimore and the Van de Poole system was installed in Toronto, Canada, and the next year in Scranton, Pa. Prior to this time experimental systems had been in use in Chicago, New York and Berlin.

Too Much Rush in Life.

Today, as never before, the world is brimming over, palpitant with the fullness. And yet so many of us fail to sense it, to so many of us a primrose is but a primrose, a fallen leaf but a dead thing. In the rush of modern life, with its insistent demands upon our time and attention, driving ourselves from one self-made duty to another, we have missed the glory of the sunshine, the fragrance of the flowers, the beauty and charm and joy that are all about us.—Exchange.

First Dolls.

The first dolls of which there is any knowledge were found among the treasures unearthed from the ruins of Babylon. They were small figures in terra cotta and ivory, beautifully carved and must have been fascinating playthings for little Assyrian children. The little girls of Syria had mechanical dolls. The dolls the classic children played with were made of wax and clay, decorated with bright colors. As these children married very young, they played with their dolls until just before their wedding day.

A Strawberry Dream.

Strawberry time recalls to those who have visited Denmark in summer that delightful cellar in Copenhagen where a feast of strawberries and cream was spread, and where those could partake thereof at a quite small charge—the equivalent of 60. If we remember rightly, plates of strawberries, quart jars of cream partly whipped, great bowls of sugar, and nothing else, all down the long table in the cool basement, in which the visitor descended from the hot street. It is in truth a strawberry dream. Every Dane knows, as I have said, that it is one of the attractions of Copenhagen, and to have eaten strawberries there once is to have an enduring memory of something really perfect on this imperfect earth.—London Chronicle.

Rice Culture Progress.

The culture of rice is attested to in the Talmud, and there is evidence that it was grown in the valley of the Euphrates before 400 B. C. It was taken into Persia from India, and later into Spain by the Arabs. Thence its culture was introduced into Italy about A. D. 1498.

A NEED THAT IS FOGOTTEN

THE school children are taking a keen interest in the formation of a chamber of commerce. In response to inquiries they have furnished suggestions of improvement and betterment that would furnish a worthy program for any organization and that would be a great credit to work up to and accomplish.

It is singular though, that while the topics submitted by the pupils covered a large and varied field activities, not one submitted that he would like to see Portsmouth have a new railway station.

Yet there isn't a need more palpable and few as imperative, in making Portsmouth a better and brighter town.

People judge by appearances and it is hard to get them away from first impressions. Sorry, indeed, then must be the opinion the visitor must form of Portsmouth, when he drops off of the train at Tenth and Waller for the first time. In the first place it is pretty much like stepping from a street car at a bedraggled corner and, if perchance he enters the dismal hole of a depot building it is worse.

About four years ago the Norfolk and Western management was going through the motions as though it meant to atone for all immovable "next year" promises by giving us the finest station on its system, but the war stopped the company short of operations so it was said and nothing beyond the acquisition of some land for the proposed site was accomplished.

President Wilson says he is going to turn the roads back to the stockholders January 1st. That will be enough of a coincidence with the birth of the chamber of commerce, which can excellently celebrate its first anniversary by making it special business to have work started on that new station next year, with no quotation marks to make it ironical.

THE ROUND OF RED TAPE

IN many papers appeared recently a news item containing the substance of a general governmental order, stating that departments are instructed that when one has material, articles or equipment in surplus, it shall first dispose of the same, if possible, to some other department at a reasonable price, but in no instance shall this price equal the first buying price.

This brings up a useless, curious, a cumbersome and a costly way the government has of doing business. Pay by it no exchange and no transferring is allowed two different departments. That is to say if the war department has something it has no use for, but the treasury could handle it to advantage the war department can not say "Take it," but there must be a bargain for price and that established must be paid by check which the selling department must debit itself by so much cash received and the buyer credit itself with so much money paid out. Money does actually pass by swelling one fund and decreasing another. But that is as far as it goes, the process being about as resultant as changing money from the right to the left pocket. For the government pays all bills in the finality and departments are but mere adjuncts of government.

This policy of operation sometimes reaches to bad conditions and costly results. Postoffice buildings, for instance, built by the government, are not under the control of the postoffice department, but under the treasury, through which all expenses of equipment, furnishing and maintaining are paid. The treasury decrees what representatives of other departments may have quarters in the building. If the government rents a building for post-office purposes the postoffice department has exclusive charge of it, does all the equipping and pays all the expenses of operation.

Before the order referred to, there seemed to be no way of transferring property from one department to another without the process of advertising and bidding, which was often costly, so it seems these days when even the government is pulling away from chaotic methods.

Speaking of pupils and chamber of commerce just buds in us the hope that when the latter body starts out on its career of usefulness and glory, one of the first things to concern it will be a nice, straight, white painted flag pole to replace the gauged, crooked and dingy brown one the pupils have set up on the high school lawn, which we fear Old Glory will never feel her proudest upon as she surely will never look it.

Oh, it is always another thing rising to vex as soon as you get rid of one. Here with the tiff on hurried up time quite forgot, comes the proposition to measure the day by twenty-four points instead of double twelve. After a time the newspapers will be agitating it and the hat will be passing round.

WHO'S WHO IN THE DAYS NEWS

MRS. HOPE OF LUFFNESS
The beautiful Mrs. Hope of Luffness, who played into great prominence by accompanying against ex-Premier Asquith in the historic general election of December last, and later had further publicity of a less desirable kind, is again in the news in consequence of her engagement, which has just been announced. Her second husband, Mr. Hope, was a member of the House of Commons, and was a member of the late Lord Grey's cabinet.

Mrs. G. E. HOPE
The constituency which Mr. Asquith represented in parliament for so many years, is the widow of a gallant British officer who, long "missing," was finally declared presumed to be dead. Colonel Hope was a member of Lord Rosebery and was otherwise connected with some of the most socially notable families in Great Britain. His widow is accounted to be one of the handsomest women of her day.

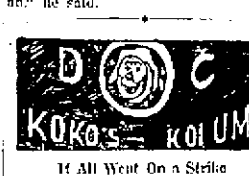

Mrs. Hope's campaign ended in a fiasco, her candidature not being at issue on the ground that she was able only to offer a check and not cash for the sum of \$750, which every parliamentary candidate is obliged to pay in to cover election expenses, and which is forfeited if the candidate fails to poll one-third of the votes cast.

A sensational sequel came a couple of months later, when the process of the late Colonel Hope petitioned the Edinburgh court of sessions to remove Mrs. Hope from the office of guardian of her two children, on the ground that she was "entirely unfit" to be entrusted with them. Mrs. Hope was then stated to have been guilty of immoral conduct and to be addicted to the excessive use of alcohol. She was charged with associating with undesirable persons and with habitually ill treating her children, and concluding herself before them in a manner calculated seriously to prejudice their health and morals.

Extraordinary evidence in support of these allegations was forthcoming, and as a result a new guardian, in the person of Lady Mary Hope, Colonel Hope's mother, was appointed by the court.

Jewelers along Fifth Avenue are doing the biggest business in history. With prices for gems skyrocketing, the demand is greater each day. One diamond merchant tells of a man with a pink coming into his place on his way home Saturday night and purchasing a diamond ring for \$1,500. "Just a little present for my old woman," he said.

It All Went On a Strike
I wonder what would happen if we all went on a strike, and everyone refused to touch a job he didn't like?

What if the cows and chickens quit, and wheat refused to grow, and corn and clover threw a fit, and what just wouldn't blow?

Marked has such an easy life. He thinks he owns the earth. If these things happened he would learn how little he is worth!

No Sleep For Him

"Yesterday," said Jackson, "I refused a poor woman a request for a small sum of money, and in consequence of my act, I passed a sleepless night. The tones of her voice, were ringing in my ears the whole time."

"Your softness of heart does you credit. Who was the woman, asked Jackson.

"My wife."

Best Thing To Do

"The theater was in an uproar. 'They're calling for the author,' said the stage manager.

"Oh, I can't make a speech," replied the man responsible for the play.

"Well, just go in front and tell 'em you're sorry."

Gentle Hint

"What a beautiful dog, Miss Ethel!" exclaimed her faithful admirer. "Is he affectionate?"

"Is he affectionate?" she asked archly. "Indeed he is. Here, Bruno! Come good doggie, and show Charlie Smith how to kiss me."

FOG CAUSE OF FATAL CRASH

PHILADELPHIA, Pa., Nov. 17.—Four Hog Island shipyard workmen were killed and seven others injured today, when a motor truck on which they were riding to work was struck by a train at a grade crossing. The accident was due to the heaviest fog experienced here in many years. On the Delaware river two ferry boats collided in midstream and a third ferry boat crashed into a tramp steamer lying at anchor. No serious damage resulted from either collision.
